

**B SPOKE ORDER FORM**

€ Prices, VAT 23%

To configure a Brompton, work through the eleven sections, circling the prices of those features you would like to incorporate; Sections 1 - 4 require a selection to be made. The total price is the sum of the items you have selected.

Do not make more than one choice in any section except in Section 4 (where two colour choices may be made on all-steel bikes) and in Section 11.

Standard equipment will be supplied unless special selections are made in Sections 5 - 8.

Although we normally keep the same prices for a year, we reserve the right to alter prices without notice.

**Weight-saving**

Whatever other features you choose, you can always save about a kilogram by selecting a Superlight bike in Section 4. Additional savings can also be made by choosing an S Type, a 1- or 2-speed (i.e. without hub-gears), avoiding mudguards, etc.

**Notes**

1. A pump is not fitted on Superlight bikes or bikes without mudguards
2. For an inside leg over 84cm/33", you should almost certainly fit an extended or telescopic seatpost; the latter is best for an inside leg over 90cm/35", or for taller riders wishing to minimise the height of the folded bike
3. Firm suspension may be more suitable for those weighing over 80kg and those who value responsiveness above comfort
4. The front luggage sets come complete with front carrier block and frame to attach the luggage to the Brompton, as well as a rain-resistant cover\*. Please note that the C Bag, T Bag and Folding Basket are unsuitable for S Type models. \*Cover is not supplied with Folding Basket or an O Bag.

N.B. Please consider the colours employed here as indicative only; colours on a paper form cannot match exactly those on a metal bike.
